BILLING CONSENT WAIVER

For the first time in decades, many insurance companies have stopped paying FCAAIA for services that are performed on the same day as an office visit which they now consider "bundling". This includes, but is not limited to skin testing, PFTs, strep, flu, RSV & COVID testing, food & drug challenges, allergy shots, etc. Your insurance company may now require several appointments on separate days to complete procedures that were previously performed on the same day as your office visit.

It is your responsibility to contact your insurance company prior to your appointment to determine if they will pay for procedures that are performed on the same day as your office visit. Our office needs to know in advance how to schedule your visit appropriately. The CPT codes can be provided by our office upon request. Examples of the CPT codes to use when calling your insurance company:

Common bundled visit codes 99204 or 99205 with skin testing codes 95004 & 95024.

Annual allergy shot revaluation visit 99214 or 99215 with allergy injection code 95117.

FCAAIA will attempt to appeal any denials that are deemed "bundling" on your behalf.

I am signing this waiver to not interrupt my medical care and agree that all charges that are not paid by my insurance company due to "bundling" will be considered my responsibility. By signing this agreement, I also agree to place a credit card on file to pay for these uncovered charges.

Finally, I am aware that this agreement is an attempt by FCAAIA to continue my medical care

without interruption and agree to hold harmless the employees and physicians of FCAAIA
